

MOOSEKILLER

Style: Barleywine
ABV: 12%
IBU: 100

A full-bodied, high alcohol, ruby red in color, balanced out by 100 IBUs of Magnum Hops. Expect a strong/warming alcohol presence, malty start, and a nice soft malt finish.

One of the original TBBC brews, the Doble boys wanted to create a hard-hitting, malt-forward beer. The Moosekiller recipe was born in 1995 and after an evening of "Quality Assurance" testing, they all agreed that this barleywine could indeed bring down a moose! Ruby red in color, this ale has a strong, warming alcohol presence. This is a full-bodied beer with a malty start, balanced by a healthy dose of Magnum hops and a nice, soft malt finish. There's no moose in Florida...this beer got 'em all.

AVAILABLE IN:

16 oz.	Cans
1/6 bbl	Kegs
1/2 bbl	Kegs

At Tampa Bay Brewing Company, our beer is made only from the finest malted barley, hops, yeast, and water and contain absolutely NO preservatives or artificial flavorings.
