

FLORIDA'S TRUE BLONDE ALE

Style: Blonde Ale
 ABV: 5%
 IBU: 24

An exceptionally drinkable beer that is smooth and crisp with a slight citrus finish, this ale is named to honor the endangered Florida panther. With only 100 panthers left in the wild and as a state symbol, the panther is Florida's TRUE blonde. The Florida's True Blonde Ale is easy drinking and big in flavor with a hint of hops on the nose. Perfectly adapted to the Florida weather, this sessionable ale is satisfying all year.

Growing up all over the world allowed the Doble brothers to experience and learn about all different styles of beer. When they began to brew their own, Johnny Doble had a preference for German style beer and set out to make a Kolsch, suitable for the Florida weather. When David rejoined the brewery he tweaked the original recipe and it became the Florida's True Blonde Ale we know and love. When searching for a name Vicki brought up the unique population of big cats in the state, contrasting the previously held notion that the Florida panther is black, when in fact, it is blonde. To contrast the stereotype of Florida's blondes, the True Blonde Ale is named in honor of the Florida Panther.
